

How to Get Your PowerCheque™ ATM-Debit Card

Tell a cashier or customer service representative that you would like to purchase a PowerCheque card.

The cost of the card is like opening a bank account and obtaining a lock box.

The retailer providing this brochure has been authorized by the bank named on the back of the PowerCheque card to accept and process the dollar amount you want to put on to your card account—this time and every time you add more money.

When money has been added to your card account, your PowerCheque card may be used immediately.
